

Shower head holder

The shower head should be light and easy to use for everybody – inclusive of people with little strength in their hands. At the same time it is important that the shower head can be placed precisely where needed, which can be obtained by mounting the mixer bracket on a track.

Shower head holder

Shower head holder for vertical handrail **RT600xxx**

The design of the shower head holder makes height adjustment easy - with one hand or hands with little strength. The angle of the shower head can be adjusted as wanted by a click-system.

Mounted on a handrail of 1000 mm the shower head holder is suitable for both seated and standing users. Can be used as a handrail as well.

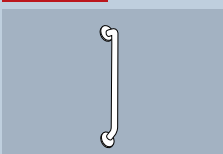

Recommended with handrails RT104, RT118/119, RT136/138.

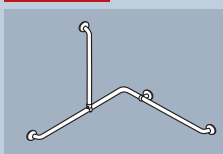

Supplementary products for RT600

RT104xxx

Handrail:
1000 mm.
See page 41.
